**Comment**

Very helpful! Willing to sit down and explain topics to students if they were confused and explained things clearly. He was also really approachable and down to earth, which made it easy to ask him for help on problems or in general. He was really knowledgeable about the topics and how to calculate answers on calculators/minitab/statcrunch, as well, so he could pretty much answer any question.

Great teacher! , explains concepts well in a manner that is easily understood.

Matthew was great!
