### Additional TA-related comments (e.g., about the discussion/lab/studio section, TA's teaching style, etc.)

Good Ta nice and approachable explains material well

Great personality, easily communicated complex ideas to the rest of the class. Conversational and friendly with all students in my class.

Matt was also an incredible instructor and always had a clear outline of what he intended to accomplish in each recitation. The recitation worked excellently hand in hand with lecture in covering relevant problems. The quizzes that Matt gave were fair and tested subject matter. His review session before the 4th exam was a life saver in that he consolidated all the important information into one 30 minute meeting. Great TA, he should be acknowledged for his hard work!!

Great TA! Wish I could have him again!

Teaching style was very effective and the quizzes were fair.

Matt was pretty helpful by giving more insight on certain topics than the notes in lectures. He's a pretty cool, free spirit guy. Quizzes once a week that were based off the homework, so it was pretty easy.

One of the best math instructors I've ever had. Give this man a raise.

Matt was great!

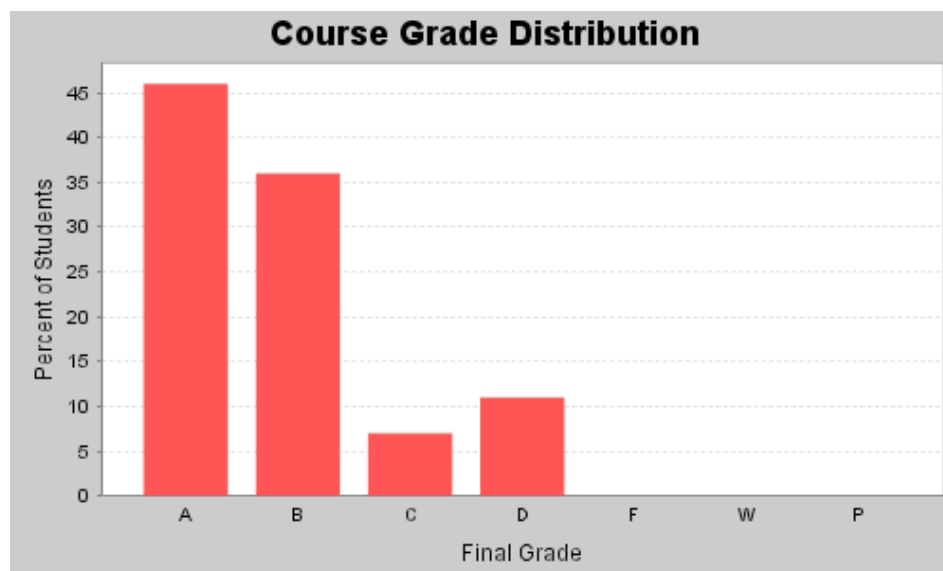

Matt is amazing! He is such a good TA that he made me decide it was worth waking up for an 8 am discussion class. I learned a lot because of him.

Matt Whiteway was a chill guy, he seemed like a rock climber to me - that made him A-Ok in my book.

The discussions were helpful and clarified the concepts taught in class very well.

Matt was an excellent TA. He showed great pride and responsibility in helping clarify any topics for students or just supplementing them with additional practice or approaches to the concepts. He clearly enjoyed seeing students succeed and went the "extra mile" as a TA, as opposed to others who just do the bare minimum to get their TA credit. I would suggest Matt as a TA and I would actually enjoy having him as a professor for a class, should he ever take that route, for he presents material very effectively.

Matt is also the man.

Grade distribution is current as of June 2, 2014 and includes students receiving a W for the course.
