**Additional TA-related comments (e.g., about the discussion/lab/studio section, TA's teaching style, etc.)**

I didn't have a TA in Calc 2 because I was in an honors section and I've only heard bad things about math TA's. Matt did a great job teaching in discussion and was totally approachable during his office hours.

Matt was an excellent TA!

Matt was a very good TA. He really got to know some of his students and it was very easy to approach him with 1-on-1 conversations if needed. He really knew what he was doing and there's no way I'd be doing as well if he wasn't running discussion.

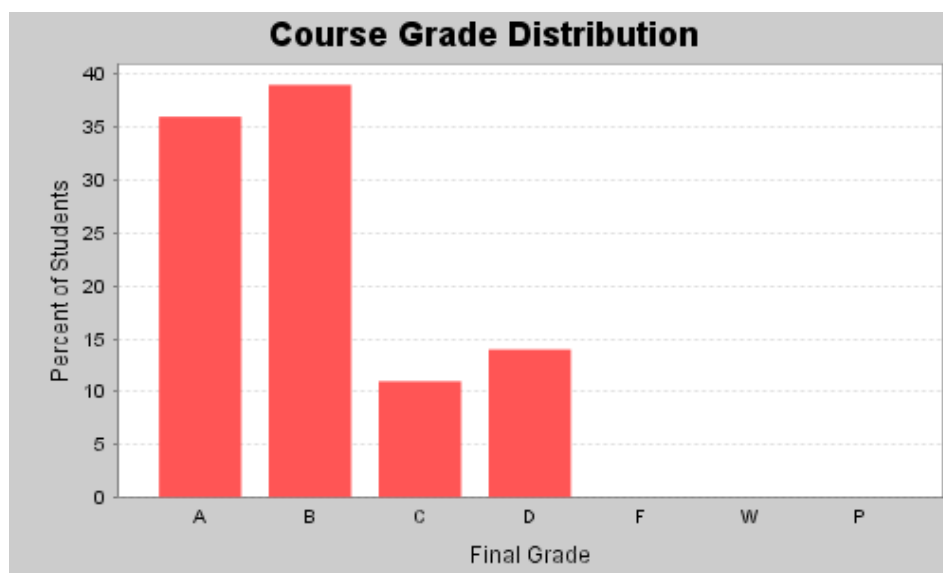

Wonderful TA. Fantastic teaching style. Very friendly guy. I think I love him.

One of the best TAs I've had here.

You are the best TA I ever had, your discussion helped enforce the course material. You explained stuff completely and easily.

Amazing

Matt always put in so much effort in discussion to help us out. He knew Calc three so well, and was great at conveying the info.

Grade distribution is current as of June 2, 2014 and includes students receiving a W for the course.
